The manning of unmanned level crossings is to be sponsored by the State Government duly agreeing to bear their share of cost and providing funds therefor. Railway has however, decided to man 4449 unmanned level crossings on broad gauge routes from its own funds and work on 1810 unmanned level crossings has been sanctioned. In addition Hon'ble MPs are being approached to sponsor manning of unmanned level crossings from MPLADS funds. Railway has also decided to man one unmanned level crossing in consultation with Hon'ble MP at its own cost for each unmanned level crossing proposed for manning from MPLAD Scheme.
